Report: Ecosystem restoration can take many forms: Growing trees, greening cities, rewilding gardens, changing diets or cleaning up rivers and coasts. This is the generation that can make peace with nature. Restoration can happen in many ways – for example through actively planting or by removing pressures so that nature can recover on its own. It is not always possible – or desirable – to return an ecosystem to its original state. We still need farmland and infrastructure on land that was once forest, for instance, and ecosystems, like societies, need to adapt to a changing climate. So we have to focus on **high-level event on Nature-based Solutions**. Our students participated in tree plantation activity organized by “Abhinav Education Society’s College of Pharmacy.” In which students asked to plant a one plant in their respective garden and send a photos of same.

Detail Report:

Rally was organized by Abhinav Education Society's College of Pharmacy (B. Pharm) on occasion of National Pollution Prevention day. It is especially observed in the memory of people who lost their lives in the Bhopal gas tragedy of 1984. Rally took place from college campus till Shree control chowk. This rally was conducted to raise awareness about pollution control measures and the prevention of industrial disasters among common people. Boards/hoarding, slogans were prepared by students. All the teaching staff along with Principal, Dr. Trupti Tuse were present for the program.
