## **PREFACE**

This book is a result of extensive literature survey done by students of pharmacy, and other science fraternity from different colleges all over India. It covers the allopathic drug details.

The information in this book is not intended to be a substitute for professional medical advice. Do not use this information to diagnose any disease; also the book should not be used for the treatment of any disease.

Students/academicians/industry persons should go through it in order to get research ideas which can be transformed into the product. Thus this book will serve as a guide for people wishing to do research on the subject covered in this book.

We are thankful to all the contributors as without their help publishing this book would have not been possible. We are also thankful to the editors of this book for timely completing the work and helping us to publish this book on time.

The book ensures that the readers acquire a good fundamental understanding of the subject. We wish all our readers knowledgeable and research oriented reading.
